Expectations for the sector and the company's role in these expectations	
Expectations regarding the economy and its impact on the company and the sector	Increasing inflation due to current Geo-Political situation has increased the cost of fuel and energy across the globe which has adversely affected the profitability of cement plants. Recent decrease in coal prices and expected downtrend will reduce the production cost of clinker and cement. But the downside of clinker market is a main concern. The cement market is relatively stable and our goal is convert the clinker sale to cement.
Future plans for growth and changes in operations in future periods	
The size and impact of current and projected capital expenditures on the company	AED. 9,857 for the 6 months ended 30.06.2024.
The developments of the implementation of projects, plans and transactions and deals that were discussed by the company's board of directors in the report for the previous fiscal year	

General Manager

Saeed Ahmed Ghareib Howaishil Alsereidi
